Breaking the Code for Successful Treatment of Fungal Nails

Presented by Robert Parker, DPM

This lecture will take place on Friday, June 9, 2017 from 8:00 a.m. - 8:30 a.m. Attending this lecture will earn 0.5 Science CECH.

Breaking the Code for Successful Treatment of Fungal Nails:

- “I will present a refreshingly new paradigm, breaking the code for combining, not only the effective treatment of fungal elements, but frankly, what our patients want most, and that is treatment that provides a better appearing nail from the cosmetic, nail renewal benefits as well. This new combination will also improve the health and appearance in other nail conditions, such as the psoriatic and traumatic nails.”
- “I will introduce what all practices are seeking, advantages such as non-prescription physician dispensed concepts to enhance the practice bottom line.”
- “I will briefly review the history of treatment and scientific studies supporting this new paradigm of nail care for our patients.”

- Robert Parker, DPM
