Important SAM Information

Intended Audience

Florida Podiatric Medical Association (FPMA) annually convenes the Science and Management Symposium (SAM), a podiatric medical and surgical conference. The intended audience of the Florida Podiatric Medical Association (FPMA) Science and Management Symposium (SAM) 2023 is Doctors of Podiatric Medicine and Podiatric Residents.

Mission Statement

The Florida Podiatric Medical Association's educational mission is to promote continuing education in podiatric medicine, podiatric surgery and practice management through workshops and seminars. Our commitment is to increase knowledge by offering every registrant the educational assistance needed to improve care for their patients and be successful in practice by promoting the benefits of scientific advancement in the treatment, prevention, and alleviation of podiatric ailments.

Disclaimer

Products displayed in the SAM 2023 Exhibit Hall have not been investigated or approved by FPMA with regard to efficiency or regulatory compliance. Each physician should practice their own due diligence regarding claims made about products displayed.

Acceptance of sponsorship at the Science and Management Symposium does not imply endorsement or approval of the company, product, or service.

Cancellation Policy

Cancellation requests were required to be submitted in writing and received by Friday, January 6, 2023, as indicated on the conference registration forms. No refunds will be issued for no-shows or cancellations received after January 6, 2023.

Force Majeure

FPMA shall not be liable for any failure or delay in performing the 2023 Science and Management Symposium to the extent caused by an event beyond FPMA's reasonable control that renders performance impossible, inadvisable or commercially impracticable, including, but not limited to, an act of God, war, terrorism, government action, disaster, fire, strike, civil disorder, curtailment of transportation facilities, disease or epidemic, failure of third party software or services, default of third-party vendors, or failure (or an interruption or defect) in communications or utility services.

Lost and Found

Please deliver any found items to the on-site registration desk. Items not collected by the end of SAM will be discarded or donated.

Code of Conduct

All participants in FPMA meetings and events (inclusive of attendees, speakers, volunteers, exhibitors, staff, members of the media, vendors, service providers, and guests) shall abide by the following professional behavior expectations:

- Respect the diversity of all participants regardless of gender, gender identity and expression, age, sexual orientation, disability, physical appearance, race, ethnicity, religion (or lack thereof), or technology choices.
- Treat all participants with kindness and consideration, respecting the views and opinions of others (including those you may not share) and critiquing ideas rather than individuals.
- Refrain from demeaning, discriminatory, bullying, or harassing behavior and speech directed toward other participants. Physical or verbal abuse of any participant shall not be tolerated.
- Comply with all rules and policies of the meeting/event venue.
- Refrain from use of sexual or discriminatory images and/or inferences in presentations, public spaces, or in online media.
- Maintain appropriate decorum by not being disruptive during lectures, poster sessions, in the exhibit hall, receptions, or other events.

Any participant who is requested to stop unacceptable behavior is expected to comply immediately. As necessary, FPMA staff or security may take immediate action deemed appropriate, including removal from the meeting or event without warning or refund. FPMA reserves the right to prohibit attendance at any future meeting or event.

This code of conduct shall apply to all venues, including ancillary events and social gatherings and shall be included in materials provided to all participants.

Violations of this code of conduct by FPMA members may be referred to the member's component for further adjudication under the FPMA Code of Ethics.

Attendance Verification

Verification Process

Every SAM 2023 physician attendee will receive a scanning name badge upon check-in at the SAM registration desk. Attendance verification will be conducted daily at the following times:

Wednesday, February 1, 2023

12:00 p.m. Outside Fiesta 6 in the pre-function space

5:30 p.m. Outside Fiesta 6 in the pre-function space

Thursday, February 2, 2023

11:30 a.m. SAM 2023 Exhibit Hall

6:00 p.m. Outside Fiesta 6 in the pre-function space

Friday, February 3, 2023

11:00 a.m. SAM 2023 Exhibit Hall

6:00 p.m. Outside Fiesta 6 in the pre-function space

Saturday, February 4, 2023

11:00 a.m. SAM 2023 Exhibit Hall

5:00 p.m. Outside Fiesta 6 in the pre-function space

Sunday, February 5, 2023

11:00 a.m. Outside Fiesta 6 in the pre-function space

Attendance Verification (cont.)

General Information

Total CECH will be calculated from each physician's attendance verification records. These hours will be submitted to CE Broker by FPMA at the conclusion of the conference, once all hours have been verified, and for FPMA Members, all 2023 membership dues have been paid in full. Florida Podiatric Physicians can view these hours via their CE Broker account at www.cebroker.com. Podiatric Physicians from other states will be sent certificates showing total CECH earned by attending SAM 2023.

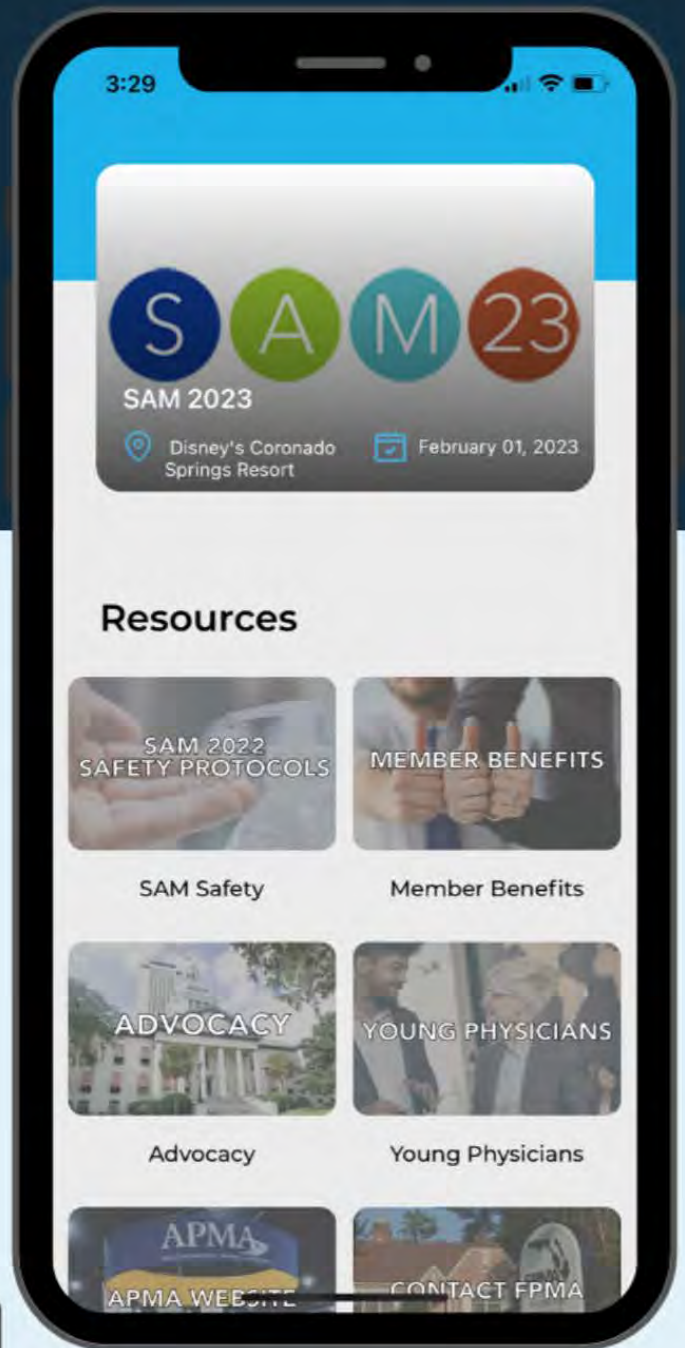

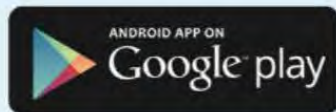

SAM 2023 attendees will be awarded up to 32.0 Continuing Education Contact Hours. Continuing Education Contact Hours (CECH) are calculated hour-per-hour based on courses attended (time taken for breaks and meals are NOT counted); e.g., a 30 minute Science lecture will earn 0.5 Science credit hours, a one-hour Science lecture will earn 1.0 Science credit hours, a 1.5 hour Practice Management lecture will earn 1.5 PM credit hours, etc.

All licensees who seek to renew the active status of their licensure must demonstrate that they have completed, during the previous two years, at least forty (40) hours of continuing education, including the following categories:

- At least one (1) of the forty (40) hours must concern the topic of Risk Management.
- At least one (1) of the forty (40) hours must be on the topic of Laws and Rules.
- At least two (2) of the forty (40) hours must be on the subject of prevention of Medical Errors.
- At least two (2) of the forty (40) hours must be on Prescribing Controlled Substances.
- While not required, licensees may complete up to three (3) hours of continuing education per biennium in the area of Practice Management.
- The remainder of the hours can be made up of Scientific hours.

Accreditation Information

Podiatric Physician Accreditation Statement: FPMA is approved by the Council on Podiatric Medical Education (CPME) as a provider of continuing education in podiatric medicine. FPMA has approved this activity for a maximum of 32 Continuing Education Contact Hours (CECH) during this five-day conference, depending on lectures attended. This conference will take place February 1 - 5, 2023 at Disney's Coronado Springs Resort in Lake Buena Vista, Florida.

In accordance with the Council on Podiatric Medical Education, FPMA is required to monitor educational session attendance for verification of CECH. Badges for attendance verification will be provided to each SAM 2023 Physician and X-Ray Assistant attendee when they check in at the conference.

CECH functions are for registered attendees only. CECH credits are based on attendance of educational sessions; sessions specified as "Non-CECH" in the conference program are not included in compiling CECH credits.

FPMA will provide attendees with a Certificate of Attendance that reflects only the number of CECH documented via their scanning badge records. CECH will be reported to CE Broker on behalf of SAM 2023 Physician and X-Ray Assistant attendees currently licensed in the state of Florida. Each attendee is responsible for reporting attendance to all appropriate boards and agencies requiring continuing education by providing a copy of their SAM 2023 Certificate of Attendance.

Certificate of Attendance: To ensure FPMA continues to provide a meaningful educational program and exceptional conference experience, FPMA requests all attendees complete an overall conference evaluation prior to receiving their Certificate of Attendance. Attendees will receive an email from FPMA with a link to complete the overall conference evaluation within three (3) weeks of the conclusion of the conference, pending all conference fees being paid and attendance verified by FPMA. The Certificate of Attendance will be provided for printing/downloading in PDF format once the overall conference evaluation is completed.

Continuing Education and Credentialing: The Florida Podiatric Medical Association (FPMA) is approved by the Council on Podiatric Medical Education (CPME) as a provider of continuing education in podiatric medicine. FPMA has approved this activity for a maximum of 32 Continuing Education Contact Hours (CECH). As is the case with all specialty societies and colleges, FPMA is not a credentialing organization and does not conduct licensing or certification processes. The principal purpose of FPMA is to facilitate education in the area of podiatric medicine and surgery. This activity is viewed to reinforce and support licensing and certification processes.

Cancellation Policy: Cancellation requests were required to be submitted in writing and received by Friday, January 6, 2023, as indicated on the conference registration forms. No refunds will be issued for no-shows or cancellations received after January 6, 2023.

Accreditation Information (cont.)

Disclosure of Conflict of Interest: Each speaker is required to disclose the existence of any financial and/or other relationships (e.g., employee, consultant, speaker's bureau, grant recipient, research support) they might have with (a) the manufacturer(s) of any commercial product(s) to be discussed during their presentation and/or (b) the commercial contributor(s) of the activity. Any such conflict will be announced by the individual introducing the speaker immediately preceding the lecture.

Cost to the Learner: SAM 2023 attendees paid a range of registration fees based on their current membership status in APMA and/or FPMA as well as the date they registered for the conference (the various registration fees were provided on the SAM 2023 Physician registration form). Non-APMA/FPMA members paid the full registration fee of \$975 (by December 6, 2022) or \$1,075 (after December 6, 2022).

CE Non-Discrimination Policy: FPMA is committed to nondiscrimination based on race, creed, color, gender, religion, national origin, age, or disability. This commitment applies in all areas to applicants, members, visitors, students, staff, faculty, and others who are affiliated with the Association. This policy addresses recruiting, hiring, training, promotions, education, and applicable employment conditions. This policy is also concerned with the choice of contractors, speakers, suppliers of goods and services, Association-sponsored programs and activities. In addition, FPMA includes a Comments/Special Needs field on all conference registration forms. These are reviewed regularly to identify attendee accessibility requirements. FPMA personnel then work with the (ADA compliant) host hotel and attendee directly to assist with providing any assistance to participate in the conference educational activities.

FPMA Policy on Privacy and Confidentiality: FPMA does not use any presentation styles containing live or video depictions of patients whose identities would need to be protected. The FPMA Convention Committee reviews conference presentations prior to conferences and one of the items that is verified is that there are no patient identifiers on any presentation slides. The policy for privacy of patient information is communicated by the moderator during each conference speaker introduction.

Photography: Please be advised that photographs taken during SAM 2023 will be used on FPMA social media pages and in marketing materials and publications accessible by the public. By attending SAM 2023, you consent to the use of your image and likeness for the purposes mentioned above.

Conference Objectives

At the conclusion of this conference, attendees will be able to...

Addressing your Gout, Hypertensive, ESRD, and Diabetic Patients from a Renal

Approach

- Learn how podiatry approaches patient care in these populations.
- Help patients navigate their care and establish treatment options
- Learn cautions to follow and when to follow-up

It's a Lifestyle Choice: The Health Effects and Dietary Risks in Your Patients with Insulin Resistance Diabetes, Peripheral Vascular Disease, Obesity, and Gout

- Open a conversation and coordination of care plan with PCP, Vascular, Renal, and additional subspecialists
- Provide therapeutic drug monitoring and negotiating lifestyle negotiations with your patients and their family

Workers Compensation

- Gain an improved understanding of Workman's Compensation
- Learn historical perspective and monetary impact of work injuries
- Learn legal terminology and implications
- Manage the work comp patient in the podiatric practice
- Spot fraud/abuse in the work comp environment
- Learn tips and tricks for handling the work comp patient

Stop the Bleed

- Learn how to control life threatening hemorrhaging due to high velocity gun shot wounds

Florida Laws and Rules

- Learn about 456, 461 F.S. and Rule 64B-18
- Learn about the disciplinary process
- Learn about licensure defense and complaints

Is Melanoma Being Overdiagnosed?

- Learn about current literature illustrating controversial issues about the diagnosis of pigmented lesions and differences among types of specialists

The Foundations of Peripheral Neuropathy and Its Diagnosis

- Better appreciate the etiology and symptoms of small fiber neuropathy
- Learn about the significance of epidermal nerve fiber density and how such calculations relate to the progression and/or regression of clinical disease

New Insights into Peripheral Neuropathy

- Learn about neuropathy, vitamin B1 deficiency, and vitamin B12 deficiency
- Learn how to reverse symptoms of peripheral neuropathy with nutrients

Chronic Achilles Rupture

- Learn about chronic Achilles tears and ruptures from diagnosis through treatment

MIS Bunion Surgery

- Gain a better understanding of the proper indications for MIS bunion surgery
- Gain tips for a successful outcome

1st MPJ Arthrodesis: The GOAT Foot Surgical Procedure

- Understand the gait changes that occur after a 1st MPJ arthrodesis compared to control groups
- Understand the gait changes pre- and post-operatively after 1st MPJ arthrodesis
- Learn about 1st MPJ arthrodesis functional outcomes, indications, and techniques
- Find out about case presentations of 1st MPJ arthrodesis

Continued on Next Page

Conference Objectives (cont.)

At the conclusion of this conference, attendees will be able to...

Modern Incision Closure Techniques

- Understand the advantages of knotless skin closure
- Comprehend the mechanisms of barbed suture skin closure
- Describe the techniques of using barbed suture skin closure
- Describe the advantages of adhesive suture retention devices
- Describe the technique of using adhesive suture retention devices

Achilles Heel Surgery in Sports Medicine

- Recognize Achilles tendon injuries in sports
- Understand clinically important Achilles anatomy
- Identify Achilles surgical pathology in sports
- Understand surgical management of Achilles injuries in the athlete

Peroneals and Leg Pain Surgery in Sports Medicine

- Recognize peroneal tendon injuries in sports
- Understand clinically important ankle and leg anatomy
- Identify peroneal and leg surgical pathology in sports
- Understand surgical management of peroneal and leg injuries in the athlete

Brostrom Ankle Ligament Repair in the Athlete – Case Report

- Learn about the lateral ankle and cases of brostrom/primary ankle ligament repairs

Pedorthics in the Treatment of the Athlete

- Learn about the utilization of shoe therapy/shoe adjustments to treat common sports lower extremity injuries

Sick Sesamoids in the Athlete

- Learn about evaluation radiographies of painful sesamoidal bones as well as conservative and surgical management

Options for the No Options CLI Patient (Didactic and Case Examples/Treatment Scenarios)

- Learn about new treatments related to the no options CLI patient and non-surgical treatments available

The Economic and Clinical Benefits of Wound Care Dispensing: New Strategies to Maximize Clinical and Financial ROI Without Sacrificing Patient Compliance

- Learn the key reasons why wound care dispensing is critical for both clinical outcomes and financial stability for practices
- Learn the value of treating diabetic patients differently under the concept of LPV (Lifetime Patient Value)
- Learn key pearls for dispensing the right product for patient wounds
- Learn the pros and cons of the two ways to dispense wound care products: In-office versus Patient Direct
- Learn how to overcome compliance concerns by using tools and protocols

Update on MRSA Treatment

- Know which antibiotics have been shown to be effective against MRSA
- Appreciate the issues concerning the use of vancomycin for MRSA infections
- Apply oral antibiotics to the treatment of lower extremity infections

Progressive Collapsing Foot Deformity: My Evidence-Based Approach to Surgical Treatment

- Understand the terminology changes from adult/pediatric flexible flatfoot to progressive collapsing foot deformity (PCFD)
- Describe the consensus group's recommendations for radiographic analysis of PCFD

Continued on Next Page

Conference Objectives (cont.)

At the conclusion of this conference, attendees will be able to...

Progressive Collapsing Foot Deformity: My Evidence-Based Approach to Surgical Treatment (cont.)

- Understand the consensus group's recommendations for a medical calcaneal displacement osteotomy, including indications and surgical correction parameters for PCFD
- Understand the consensus group's recommendations for an Evans osteotomy and Cotton osteotomy, including indications and surgical correction parameters for PCFD
- Understand the consensus group's general surgical recommendations for PCFD
- Understand the surgical basis for treatment of equinus deformity
- Understand the surgical basis and optimal position for hindfoot and forefoot alignment

Expert Surgical Panel

- Expand knowledge regarding key steps to maximize outcomes of various surgical techniques
- Understand the pros and cons of various surgical treatment concepts
- Gain insight into results of surgical procedures and techniques from experienced surgeons
- Gain further knowledge of general surgical techniques

ABFAS LEAD Process for Certification

- Learn about ABFAS LEAD Process for continuing certification for ABFAS diplomates

Management and Reconstruction of Complex Post-Traumatic Segmental Bone Defects Utilizing Distraction Osteogenesis

- Learn about the management and reconstruction of complex post-traumatic segmental bone defects utilizing distraction osteogenesis

Cobalt Free Custom Total Ankle Case

- Highlight allergy testing as well as report in literature that good outcomes can be achieved with current technology in orthopedic implants

MTPJ and Ankle Arthritis and Using the S-Core Implant as Surgical Treatment

- Learn about the pathophysiology of degenerative joint disease of the first metatarsophalangeal joint and provide surgical treatment options for early stage disease

The Evolution of Customization in Foot and Ankle Surgery

- Learn about the advancements and application of patient-specific instrumentation and 3D printing within foot and ankle surgery
- Learn about the risks, indications, and advantages of customized surgical solutions

Core Osteochondral Preservation Platform, a Novel Technique/Implant for Joint Reconstruction

- Learn about the use of a subchondral footing implant for talar OCDs

Antibiotic Treatment for Osteomyelitis

- Recognize that the long held "standard of care" for the treatment of osteomyelitis is not based on medical evidence
- Describe the available evidence that supports antibiotic therapy for the treatment of osteomyelitis
- Change thinking that parenteral antibiotics are more effective than oral antibiotics

Managing Practice Health in the Post COVID Era

- Break down practice processes from initial communications, scheduling

Continued on Next Page

Conference Objectives (cont.)

At the conclusion of this conference, attendees will be able to...

Managing Practice Health in the Post COVID Era

- Break down practice processes from initial communications, scheduling, triage, and pre-visit preparations all the way through patient arrival, evaluation, treatment, check out, follow-up and collections
- Establish plans to improve, monitor, and maintain a successful practice in the Post COVID era

The Claim You Don't See Coming. What Happens When Your Patient Dies?

- Learn about a real life claim from the viewpoint of the doctor and how the attorneys (both plaintiff and defendant) might have prepared for the case
- Learn what goes into preparing for a trial
- Learn what can be done to decrease risk

Are You Being Targeted by Medicare?/What is TPE?/What is Medicare Looking for?

- Know how to best apply the guidelines and information provided to assist in documentation and avoiding audits
- Learn how to respond when records are requested for a TPE

Surgical Complications: Expert Panel Debate

- Become familiar with complex cases having subsequent complications

Resident Case Presentation Competition and Poster Competition

Resident Case Presentation Competition

The Florida Podiatric Medical Association (FPMA) is pleased to announce the 19th Annual Residents Forum taking place at the FPMA Science & Management Symposium (SAM 2023) on Friday, February 3, 2023 from 2:00 p.m. to 4:00 p.m.

As in previous years, FPMA is requesting engaging cases to be presented in a PowerPoint format with a strict 7.5-minute time limit. We will award the top three presenters with winnings of \$300 (1st place), \$200 (2nd place), and \$100 (3rd place). The top winners will be announced, and the 1st place winner will be asked to present, on Saturday, February 4, 2023.

Presentations will be scored based on:

- a) Quality of the oral presentation
- b) Rationale for procedure/fixation employed
- c) Lessons learned from the success/failure of the surgery
- d) Strict adherence to the 7.5-minute time limit

Poster Competition

Submissions are for the SAM 2023 Poster Competition held February 2 - 4, 2023.

The top 3 poster winners will be awarded to the corresponding authors on Saturday, February 4, 2023 at the start of the afternoon session in the main lecture hall.

Topics for posters should be based on lower extremity conditions/procedures/care and must include one podiatric physician as a lead author. The podiatric attendings, residents, young practitioners, and medical students listed as authors must be APMA/FPMA members in good standing. If a resident or student is the corresponding author, one attending must be registered for the SAM conference. If the participants formerly listed are not APMA/FPMA members, they must join APMA or be removed from the competition. Only in-state residency programs will be allowed to participate at this time.

Posters will not be judged within categories. Our judging criteria will use a point system. The top 3 posters will be awarded and presented on Saturday, February 4, 2023.
