## Important SAM Information

#### **Intended Audience**

Florida Podiatric Medical Association (FPMA) annually convenes the Science and Management Symposium (SAM), a podiatric medical and surgical conference. The intended audience of the Florida Podiatric Medical Association (FPMA) Science and Management Symposium (SAM) 2025 is Doctors of Podiatric Medicine and Podiatric Residents.

#### **Mission Statement**

The Florida Podiatric Medical Association's educational mission is to promote continuing education in podiatric medicine, podiatric surgery and practice management through workshops and seminars. Our commitment is to increase knowledge by offering every registrant the educational assistance needed to improve care for their patients and be successful in practice by promoting the benefits of scientific advancement in the treatment, prevention, and alleviation of podiatric ailments.

#### **Disclaimer**

Products displayed in the SAM 2025 Exhibit Hall have not been investigated or approved by FPMA with regard to efficiency or regulatory compliance. Each physician should practice their own due diligence regarding claims made about products displayed.

Acceptance of sponsorship at the Science and Management Symposium does not imply endorsement or approval of the company, product, or service.

## **Cancellation Policy**

Cancellation requests were required to be submitted via email (admin@fpma.com) and received by Wednesday, December 18, 2024, as indicated on the conference registration forms. No refunds will be available for no-shows or cancellations received after December 18, 2024.

## **Force Majeure**

FPMA shall not be liable for any failure or delay in performing the 2025 Science and Management Symposium to the extent caused by an event beyond FPMA's reasonable control that renders performance impossible, inadvisable or commercially impracticable, including, but not limited to, an act of God, war, terrorism, government action, disaster, fire, strike, civil disorder, curtailment of transportation facilities, disease or epidemic, failure of third party software or services, default of third-party vendors, or failure (or an interruption or defect) in communications or utility services.

#### **Lost and Found**

Please deliver any found items to the on-site registration desk. Items not collected by the end of SAM will be discarded or donated.

## **Code of Conduct**

All participants in FPMA meetings and events (inclusive of attendees, speakers, volunteers, exhibitors, staff, members of the media, vendors, service providers, and guests) shall abide by the following professional behavior expectations:

- Respect the diversity of all participants regardless of gender, gender identity and expression, age, sexual orientation, disability, physical appearance, race, ethnicity, religion (or lack thereof), or technology choices.
- Treat all participants with kindness and consideration, respecting the views and opinions of others (including those you may not share) and critiquing ideas rather than individuals.
- Refrain from demeaning, discriminatory, bullying, or harassing behavior and speech directed toward other participants. Physical or verbal abuse of any participant shall not be tolerated.
- Comply with all rules and policies of the meeting/event venue.
- Refrain from use of sexual or discriminatory images and/or inferences in presentations, public spaces, or in online media.
- Maintain appropriate decorum by not being disruptive during lectures, poster sessions, in the exhibit hall, receptions, or other events.

Any participant who is requested to stop unacceptable behavior is expected to comply immediately. As necessary, FPMA staff or security may take immediate action deemed appropriate, including removal from the meeting or event without warning or refund. FPMA reserves the right to prohibit attendance at any future meeting or event.

This code of conduct shall apply to all venues, including ancillary events and social gatherings and shall be included in materials provided to all participants.

Violations of this code of conduct by FPMA members may be referred to the member's component for further adjudication under the FPMA Code of Ethics.

## WHERE **COMPRESSION** MEETS COMPLIANCE

Increase Compliance, Reduce Edema, and Improve Wound Care Outcomes with the EXTREMIT-EASE® Compression Garment.

Available Options: XS-XXL • Regular & Tall • Tan & Black

"This is [a]...very profitable and beneficial service provided to patients and practices in the podiatry profession...I would highly recommend that we advertise this heavily with FPMA and provide as much information to the membership as possible."

## SAM 2025 Scanning Schedule

SAM 2025 registered Physicians and X-Ray Assistants will need to scan each day they attend the conference in order to receive Continuing Education Contact Hours (CECH).

Attendees will use a PIN code to log their information via the FPMA SAM 2025 mobile app. Please note that QR codes (used at past FPMA conferences) will not be utilized for this purpose.

Scanning will be conducted daily at the following times:

#### Wednesday, January 29, 2025

Scanning will be available during the FPMA General Membership Meeting (GMM).

#### Thursday, January 30, 2025 - Saturday, February 1, 2025

#### For Physician Attendees:

- Scanning will be available at 11:00 a.m. in the SAM 2025 Exhibit Hall.
- Additional scanning will take place after the final lecture of the day in the assigned room.

## Saturday, February 1, 2025

#### For X-Ray Assistant Attendees:

- Scanning will be available at 11:00 a.m. in the lecture room.
- Additional scanning will take place at the end of the day in the X-Ray Assistants' location.

## Sunday, February 2, 2025

## For Physician Attendees:

• Scanning will be available following the final lecture of the day.

## **SAM 2025 Scanning Information**

## **General Information**

Total CECH will be calculated from each SAM 2025 physician attendee's scanning records. These hours will be submitted to CE Broker by FPMA at the conclusion of the conference, once all hours have been verified, and for FPMA Members, all 2025 membership dues have been paid in full. Florida Podiatric Physicians can view these hours via their CE Broker account at <a href="https://www.cebroker.com">www.cebroker.com</a>. Podiatric Physicians from other states will be sent certificates showing total CECH earned by attending SAM 2025.

SAM 2025 attendees will be awarded up to 23.5 Continuing Education Contact Hours. Continuing Education Contact Hours (CECH) are calculated hour-per-hour based on courses attended (time taken for breaks and meals are NOT counted); e.g., a 30 minute Science lecture will earn 0.5 Science credit hours, a one-hour Science lecture will earn 1.0 Science credit hours, a 1.5 hour Practice Management lecture will earn 1.5 PM credit hours, etc.

All licensees who seek to renew the active status of their licensure must demonstrate that they have completed, during the previous two years, at least forty (40) hours of continuing education, including the following categories:

- At least one (1) of the forty (40) hours must concern the topic of Risk Management.
- At least one (1) of the forty (40) hours must be on the topic of Laws and Rules.
- At least two (2) of the forty (40) hours must be on the subject of prevention of Medical Errors.
- At least two (2) of the forty (40) hours must be on Prescribing Controlled Substances.
- While not required, licensees may complete up to three (3) hours of continuing education per biennium in the area of Practice Management.
- The remainder of the hours can be made up of Scientific hours.

For more information about continuing education requirements during the current biennium (April 1, 2024 - March 31, 2026), go to the FPMA website "Current Biennium Information" page located at

https://www.fpma.com/current\_biennium\_information.php

## **Accreditation Information**

Podiatric Physician Accreditation Statement: FPMA is approved by the Council on Podiatric Medical Education (CPME) as a provider of continuing education in podiatric medicine. FPMA has approved this activity for a maximum of 23.5 Continuing Education Contact Hours (CECH) during this five-day conference, depending on lectures attended. This conference will take place January 29, 2025 - February 2, 2025 at Disney's Coronado Springs Resort in Lake Buena Vista, Florida.

In accordance with the Council on Podiatric Medical Education, FPMA is required to monitor educational session attendance for verification of CECH. Registered SAM 2025 Physician and X-Ray Assistant attendees were provided with instructions on how to upload the FPMA SAM 2025 Mobile App for scanning purposes prior to the conference taking place.

CECH functions are for registered attendees only. CECH credits are based on attendance of educational sessions; sessions specified as "Non-CECH" in the conference program are not included in compiling CECH credits.

FPMA will provide attendees with a Certificate of Attendance that reflects only the number of CECH documented via their scanning records. CECH will be reported to CE Broker on behalf of SAM 2025 Physician and X-Ray Assistant attendees currently licensed in the state of Florida. Each attendee is responsible for reporting attendance to all appropriate boards and agencies requiring continuing education by providing a copy of their SAM 2025 Certificate of Attendance.

Certificate of Attendance: To ensure FPMA continues to provide a meaningful educational program and exceptional conference experience, FPMA requests all attendees complete an overall conference evaluation prior to receiving their Certificate of Attendance. Attendees will receive an email from FPMA with a link to complete the overall conference evaluation within three (3) weeks of the conclusion of the conference, pending all conference fees being paid and attendance verified by FPMA. The Certificate of Attendance will be provided for printing/downloading in PDF format once the overall conference evaluation is completed.

Continuing Education and Credentialing: The Florida Podiatric Medical Association (FPMA) is approved by the Council on Podiatric Medical Education (CPME) as a provider of continuing education in podiatric medicine. FPMA has approved this activity for a maximum of 23.5 Continuing Education Contact Hours (CECH). As is the case with all specialty societies and colleges, FPMA is not a credentialing organization and does not conduct licensing or certification processes. The principal purpose of FPMA is to facilitate education in the area of podiatric medicine and surgery. This activity is viewed to reinforce and support licensing and certification processes.

**Cancellation Policy:** Cancellation requests were required to be submitted via email (admin@fpma.com) and received by Wednesday, December 18, 2024, as indicated on the conference registration forms. No refunds will be available for no-shows or cancellations received after December 18, 2024.

## **Accreditation Information (cont.)**

**Disclosure of Conflict of Interest:** Each speaker is required to disclose the existence of any financial and/or other relationships (e.g., employee, consultant, speaker's bureau, grant recipient, research support) they might have with (a) the manufacturer(s) of any commercial product(s) to be discussed during their presentation and/or (b) the commercial contributor(s) of the activity. Any such conflict will be announced by the individual introducing the speaker immediately preceding the lecture.

Cost to the Learner: SAM 2025 attendees paid a range of registration fees based on their current membership status in APMA and/or FPMA as well as the date they registered for the conference (the various registration fees were provided on the SAM 2025 Physician registration form). Non-APMA members paid the full registration fee of \$975 (by November 25, 2024) or \$1,075 (after November 25, 2024).

**CE Non-Discrimination Policy:** FPMA is committed to nondiscrimination based on race, creed, color, gender, religion, national origin, age, or disability. This commitment applies in all areas to applicants, members, visitors, students, staff, faculty, and others who are affiliated with the Association. This policy addresses recruiting, hiring, training, promotions, education, and applicable employment conditions. This policy is also concerned with the choice of contractors, speakers, suppliers of goods and services, Association-sponsored programs and activities. In addition, FPMA includes a Comments/Special Needs field on all conference registration forms. These are reviewed regularly to identify attendee accessibility requirements. FPMA personnel then work with the (ADA compliant) host hotel and attendee directly to assist with providing any assistance to participate in the conference educational activities.

**FPMA Policy on Privacy and Confidentiality:** FPMA does not use any presentation styles containing live or video depictions of patients whose identities would need to be protected. The FPMA Convention Committee reviews conference PowerPoint presentations prior to conferences and one of the items that is verified is that there are no patient identifiers on any PowerPoint presentation slides. The policy for privacy of patient information is communicated by the moderator during each conference speaker introduction.

**Photography:** Please be advised that photographs taken during SAM 2025 will be used on FPMA social media pages and in marketing materials and publications accessible by the public. By attending SAM 2025, you consent to the use of your image and likeness for the purposes mentioned above.

# THE LARGEST LABORATORY STUDY FOR ONYCHOMYCOSIS

Onychomycosis is an under-recognized healthcare burden. Despite the risk of misdiagnosis, confirmatory laboratory testing is under-utilized. Our results support the use of confirmatory laboratory testing when there is a clinical diagnosis of onychomycosis.

Be sure to visit the BakoDx Team at Island Space C

Giving You An Edge in the Fight Against Disease

Lauderdale Pathology is a full service podiatric pathology laboratory that has been in business for over ten years.

When you call our lab, one of our customer service representatives will answer the phone.

These are just some of the ways we work to provide our clients with the highest level of care for their patients without compromise!

Contact us at 954-977-7959 or visit our website and read testimonials at lauderdalepathology.com

## **Conference Objectives**

### At the conclusion of this conference, attendees will be able to...

## Florida Laws & Rules for Podiatric Physicians

- Understand applicable Laws & Rules for licensed Podiatric Physicians.
- Have knowledge of the disciplinary process.
- Learn about rights afforded to physicians in licensure disciplinary cases.
- Have the ability to locate applicable statutes and rules through online resources.

## Performance Testing: Tools Aiding in the Podiatric Medicine Care in Athletes

- Understand the key performance testing tools used in the care of athletes.
- Identify the benefits these tools offer in podiatric medical care.
- Demonstrate how to effectively use these tools in clinical practice.
- Analyze case studies showcasing successful implementation of performance testing tools.
- Discuss the future trends and advancements in performance testing for athlete care.

## **Keeping the Athlete Training During an Injury**

- Understand the athlete and the sport.
- · Learn how to form a Collaborative Team.
- Identify the type of injury and its restrictions, including length of healing time.
- Develop effective training programs to prevent muscle atrophy and maintain overall fitness

## Footwear Recommendations in Athlete Specific Sports

- Understand the importance of sport-specific footwear in athletic performance.
- Identify the key features of footwear that cater to different sports.
- Explain how proper footwear can prevent injuries in athletes.
- Demonstrate how to evaluate and recommend appropriate footwear for various sports.

## Footwear Recommendations in Athlete Specific Sports (cont.)

 Discuss the latest advancements and trends in athletic footwear design and technology.

#### **Podiatry, Bias and Possible Solutions**

- Review the perceived and real bias in Podiatry.
- Understand how bias in Podiatry effects the profession.
- Review suggested solutions to bias in Podiatry.

#### Biomechanics of the Tween Foot: Understanding How to Diagnose and Treat a Foot that is Changing Rapidly from Its Pediatric to Adult Form

- Discover the critical biomechanical changes that occur as the foot transitions from pediatric to adult.
- Explore key foot type shifts, common challenges, and strategies to effectively support foot health through these developmental stages.
- Understand the connection between the foot and MANY common orthopedic conditions essential at helping tweens eliminate pain and live a more physical lifestyle.

## Understanding the Development and Importance of Early Intervention of the

- 1 3-Year-Old Foot
  - Understand the most common foot and ankle pathologies associated with podopediatrics 3 years and younger.
  - Understand how to select the appropriate orthotic design and selection based on pathological foot-type and chief complaint in kids 3 years and younger.
  - Understand how to assess when a flatfoot may not be normal in kids 3 years and younger.
  - Understand how foot structure plays a huge role in treating patients with Sensory Processing disorders and autism spectrum diagnoses.

#### At the conclusion of this conference, attendees will be able to...

#### Five Things You May Not Know About Lymphedema and Medicare's New LTA Policy: Diagnosis, Testing, and Practice Implementation

- Learn the differences between edema and Lymphedema.
- Properly diagnose and treat Lymphedema in the lower extremities.
- Find out how to implement a Lymphedema program into your practice.

#### **Modern Wound Care Algorithm**

- Learn about the algorithm used for deciding which types of grafts to consider with different types of wounds.
- Learn the different types of grafts that can be used.
- Learn about office based vs. wound care center vs. hospital based graft options.
- Learn about Q codes vs. A codes.

#### Updates for the Application of Skin Substitute Grafts for Treatment of DFU and VLU of Lower Extremities

- Understand the covered Indications for the application of skin substitutes.
- Understand the Coverage Requirements for skin substitutes.
- Understand the Limitations for the application of skin substitutes
- Understand the Utilization Parameters for the application of skin substitutes

## Risk Management Course – Behind the Curtain: Navigating Surgery, Expectations, and Complications with Precision

- Gain effective preoperative strategies to align surgical goals with patient expectations, ensuring clear communication and informed consent.
- Learn the importance of implementing advanced surgical techniques to achieve optimal outcomes while minimizing the risk of intraoperative errors or complications.
- Identify and address postoperative complications with confidence and precision, enhancing recovery and patient satisfaction.

## Posterior Heel Pain and Achilles Tendon Pathology Summit (Conservative and Surgical Options)

- Understand the Mechanism of Action:
   Describe the principles of photobiomodulation and how Class 4 laser therapy reduces inflammation, promotes tissue repair, and alleviates pain in posterior heel conditions.
- Identify Indications and Contraindications: Recognize the common conditions treated with Class 4 laser therapy, such as Achilles tendinitis, and understand when the therapy is not appropriate.
- Demonstrate Proper Application
   Techniques: Learn the protocols for safely
   and effectively administering Class 4 laser
   therapy, including appropriate dosages,
   settings, and safety measures for posterior
   heel pain treatment.
- Evaluate Clinical Outcomes: Assess the effectiveness of Class 4 laser therapy in reducing pain, improving function, and accelerating recovery for patients with posterior heel pain.

#### **Introduction to Topical Cannabinoids**

- Gain an understanding of the basic science behind cannabinoids.
- Learn about the differences between various cannabinoids.
- · Learn the history of cannabinoids.
- Become informed about the current peerreviewed literature on the use of cannabinoids.

#### "AI" in Lower Extremity Dermatology

- Review how artificial intelligence software, computers, and smartphone apps can aid podiatrists in the diagnosis and management of lower extremity skin and nail conditions.
- Learn about the application of artificial intelligence in podiatry as well as improving physician lower extremity dermatology diagnostic skills with technology.

Continued on Next Page

#### At the conclusion of this conference, attendees will be able to...

#### "AI" in Lower Extremity Dermatology (cont.)

- Understand the proper use of and limitations of artificial intelligence technology in clinical practice.
- Improve patient outcomes with AI-guided diagnosis and treatment of skin and nail disorders, and reduce errors in diagnosis of skin and nail pathology.

## New Biologics for Treatment of Rashes, Plaques, and Other Lesions

Speaker learning objectives not provided: Please see SAM 2025 mobile app for learning objectives.

#### **Disparities in Wound Care Delivery**

- Learn how cellular, social, and physical environments contribute to disparate health outcomes.
- Find out about Technology in Skin Color Assessment and PI detection.
- Find out Stats on Pressure Injury occurrence across care settings.
- Learn about Best Practices: Assess for other indicators of skin and tissue damage.

#### Intro to Dermoscopy for the DPM

- Learn what Dermoscopy is and why you should use a dermatoscope in your Podiatry Practice
- Learn the common patterns and structures seen with dermoscopy
- Learn how to identify common skin cancers using a dermatoscope.
- Learn how to identify Atypical Acral nevi using a dermatoscope.

## What's New from Florida Fellowship Programs? Interesting Cases and/or Research

 Updates on five Florida Fellowship programs will be presented.

#### **ADA Compliance for Podiatric Physicians**

 Learn about recent changes and amendments to the Americans with Disabilities Act (ADA) and how they apply to podiatric physicians and their practices.

#### **Charcot Foot/Ankle Management**

 Learn how to use MIS to decrease complications in diabetic patients.

#### MIS Forefoot: MIS Hammertoes, The Non-Fusion Hammertoe

- Learn the proper use of minimally invasive burrs to effectively perform osteotomy and deformity correction in hammertoe surgery.
- Learn to identify and implement intraoperative techniques and postoperative protocols to enhance functional outcomes and minimize complications associated with minimally invasive hammertoe correction.

#### MIS Forefoot: MIS Distal Metatarsal Osteotomies – Indications and Techniques

- Learn how to develop proficiency in the application of minimally invasive burrs to perform precise distal metatarsal osteotomies, ensuring accurate correction of deformities such as metatarsalgia or metatarsus adductus while preserving vascular integrity and soft tissue structures.
- Learn how to analyze the mechanics of burr usage, including proper angulation, controlled speed, and torque application, to achieve optimal osteotomy results and reduce intraoperative and postoperative complications.

## MIS Fusions: MIS Joint Preparation for Various Fusions in Foot Surgery

- Develop a knowledge in minimally invasive joint preparation techniques for foot fusions, including the effective use of specialized burrs to debride cartilage, optimize bone contact, and facilitate successful arthrodesis while minimizing soft tissue disruption.
- Evaluate the indications, benefits, and limitations of minimally invasive joint preparation in various foot fusion procedures (e.g., first MTPJ, subtalar, and midfoot fusions) to improve surgical efficiency, reduce recovery times, and enhance long-term patient outcomes.

## At the conclusion of this conference, attendees will be able to...

#### MIS Achilles: Midsubstance and Insertional

- Understand advantages of MIS Achilles Midsubstance repair compared to open.
- Understand the MIS Achilles Midsubstance repair technique.
- Understand advantages of the MIS Achilles Insertional repair compared to other techniques.
- Describe the postoperative protocol for MIS Achilles Insertional repair.

## MIS vs. Open - Why Open Procedures Still Make Sense

Speaker learning objectives not provided: Please see SAM 2025 mobile app for learning objectives.

#### **Resident Case Presentations**

 Podiatric Residents will present a variety of case presentations on podiatric subjects.

## Neuropathic Trauma (ORIF vs. Primary Fusion)

- Review when to do ORIF in a neuropathic patient.
- Review when to do fusion on a neuropathic patient.
- Understand complications and prevention of complications in a neuropathic patient.
- Review the complications by trauma with the neuropathic patient.

## Ankle Fractures: How Do I Decide on Fixation?

- Review classification of ankle fractures.
- Understand when to fix the isolated lateral malleolus fracture.
- Review fixation constructs for various ankle fracture patterns.
- Review posterior malleolus fracture and when to fix it.
- Understand Syndesmosis reduction and fixation of ankle fractures.
- Review the Deltoid ligament and use of Arthroscopy for repair.

#### **Common Forefoot and Midfoot Traumas**

 Learn about treatment protocols/options for common forefoot trauma.

#### **Common Forefoot and Midfoot Traumas (cont.)**

- Learn treatment protocols/options for common midfoot trauma.
- Learn approaches for high risk patients vs. low risk patients.
- Learn about new techniques/advancements in foot trauma.

#### **Calcaneal Fractures**

- Identify the various fragments in an intraarticular depression calcaneal fracture.
- Understand the reduction maneuvers required for ORIF of calcaneal fractures.
- Know when it may be appropriate to treat calcaneal fractures with external fixation.
- Understand which fractures may require emergent intervention.

#### Reverse Peroneus Brevis Muscle in Limb Salvage

Speaker learning objectives not provided: Please see SAM 2025 mobile app for learning objectives.

## Orthoplastics: Intrinsic Muscle Flaps for Wound Closure

- Master the principles and surgical techniques for harvesting and positioning intrinsic muscle flaps in the foot and ankle to achieve durable and functional wound closure, especially in complex or high-risk cases.
- Analyze the indications, biomechanical advantages, and postoperative outcomes of intrinsic muscle flaps for addressing soft tissue defects, promoting wound healing, and preserving limb function in foot and ankle surgery.

## Using the Angiosome Concept to Select Proper Flaps in Limb Salvage

- Understand the concept angiosome of the lower extremities.
- Understand the relationship of angiosome and flaps when planning surgery.
- Understand the benefits of muscle vs. fasciectomies flaps.
- Understand the various modalities that can assist the orthoplastic surgeon in identifying perforating arteries.

#### At the conclusion of this conference, attendees will be able to...

## **Creating YOUR Brand: Establish a Strong Market Share**

- Presenters will share insights on how to effectively niche listener's practice, without sacrificing revenue and bleeding your business.
- Gain valuable formulas to be used to forecast the future and determine what is possible without the guess work.
- Learn the value of and how to use instrumental KPIs within your practice and strategic planning.
- Take away helpful tips and tricks to create strong market share within attendees' area(s).

#### The Art of Selling vs. Dispensing

- Finally answer the question of, "Should I carry OTC?".
- Learn a simple, yet necessary forecast formula to predict potential OTC revenue.
- Expert to novice ancillary service/product carriers will learn how to change mindsets and build cash-based services into your treatment plans.
- Learn easy-to-follow tips, tricks and formulas to guide your practice to a diverse revenue stream.

#### **AI in Practice Management**

- Learn about what AI is in the medical setting for Podiatry.
- Learn how to do an exam with AI assistance.
- Learn how to integrate this with your EHR.
- Learn how to create a workflow for the office.

#### Revolutionizing Lymphedema Care: Harnessing the NEW Lymphedema Treatment Act in Clinical Practice

- Learn the latest clinical techniques and protocols for effectively diagnosing and treating Lymphedema.
- Enhance patient outcomes through improved clinical practices and adherence to updated guidelines.
- Navigate the financial and reimbursement landscape introduced by the Lymphedema Therapy Act.

#### Revolutionizing Lymphedema Care: Harnessing the NEW Lymphedema Treatment Act in Clinical Practice (cont.)

- Develop effective patient education programs to empower individuals with Lymphedema in managing their condition.
- Improve patient adherence to treatment plans, leading to better health outcomes and reduced complications.

## Disney Secrets to Create an Unforgettable Patient Experience

- Learn insights, tips and tricks that can easily be applied back to your practice.
- Define the stigmas of current podiatry, shedding light on what could be changed to enhance patient experience.
- Learn the fundamentals of creating a unique and memorable experience that elevates word of mouth referrals.
- Gain tangible knowledge that can help reshape your practice overnight.

#### **Evolve or Die: Ancillary Revenue Tips & Tricks**

- Learn statistics and insights, shedding light on why the evolution of typical podiatry is necessary.
- Gain helpful tips and tricks on how to choose not only the right ancillary service to provide, but also the right people to include.
- Learn the necessary formula to predict payoff time and true value before pulling the trigger on any investment.
- Gain easy to follow marketing strategies to set your new service up for success.

#### **Prescribing Controlled Substances**

 Learn the pharmacology of opioids and controlled substances, epidemiology and incidence of opioid and controlled substance usage.

#### 2025 ICD-10-CM and CPT Changes/Updates

- Learn the new ICD-10-CM diagnosis codes for 2025.
- Learn the new CPT changes for 2025.
- Learn that the new Telemedicine Office Codes are in reality E/M codes.
- Learn how to code for a skin cell suspension autograft.

# X-Ray Assistant Schedule

The SAM 2025 Podiatric X-Ray Assistant program will take place on Saturday, February 1, 2025 in **Coronado L**.

Registered Podiatric X-Ray Assistants were provided with instructions on downloading the FPMA SAM 2025 app via email in advance of SAM 2025. SAM 2025 Podiatric Physicians and X-Ray Assistants will use a PIN code to log their attendance information via the FPMA SAM 2025 mobile app.

#### **Podiatric X-Ray Assistant Scanning Schedule:**

- Scanning will take place at 11:00 a.m. in Coronado L.
- Scanning will take place at 4:45 p.m. in Coronado L.

Every Podiatric X-Ray Assistant attendee must scan at the times listed above in order to receive credit for attending the SAM 2025 Podiatric X-Ray Assistant program.

All registered Podiatric X-Ray Assistants must attend the six-hour X-Ray Assistant program taking place live at SAM 2025. as well as complete the two-hour on-line Medical Errors course. A link to access the Medical Errors course was emailed to all registered Podiatric X-Ray Assistants prior to SAM 2025. The two-hour on-line Medical Errors course can be taken after SAM 2025 takes place, but must be successfully completed prior to applying for initial licensure or recertification.

The examination for Initial licensure of Podiatric X-Ray Assistants will be offered on Sunday, February 2, 2025 in **Fiesta 5**. Please make sure to be on time for the exam.

### Saturday, February 1, 2025 (Coronado L)
